

GRAND OPENING OF THE YEAR 7 AREA

After a lot of hard work from students and staff the new and improved year 7 area was declared open on Friday the 21st May.

Year 7 students now have a really lovely base to spend time in, eat their lunch and meet new friends. The redesigning of the area started back in October with a group of students from year 7 and 8. These students, along with Andrew Bolton (a professional artist), spent their own time after school designing and producing an eye catching mural. This mural was completed at the end of April and then the gardening club set about carefully restoring and replanting the flower beds in the area.

On a very sunny Friday afternoon in May, the existing year 7 students were finally given and very bright, colourful and flowery year 7 area, with freshly painted benches and a herb garden to enjoy. The event was well attended by both year 7 students and staff. The Wyvern Waves radio team very kindly put on a live radio broadcast. Students and staff had the opportunity to sit in the sun, relax and listen to live interviews and music.

A huge thank you needs to go out to all the staff and students involved, it has been a long project but I think it's been worth it.

Well done
